GLOBAL TECHNOLOGY – LOCAL SERVICE

## NW Ultrasonic Cleaner

Ultrasonics have been proven as the only way to truly deep clean cells of anilox rollers. Using the very latest technology, Caresonic are one of Europe's foremost companies specialising in industrial ultrasonic cleaning equipment.

Traditionally, units have been large and expensive. To provide a better product offering, Caresonic have recently released a new NW Benchtop Unit, especially designed for narrow web, label and tag printers.

Combining the full features of the larger Caresonic MKIII Unit, the NW Benchtop includes driven belt rollers, heating and strong ultrasonic modules made from stainless steel.

CARESONIC

This specialised range is priced attractively and available in a single or twin roller configuration:

- Single Roller Unit = \$4,000 AUD
- Twin Roller Unit = \$5,000 AUD

Note: pricing ex works UK and excludes GST, shipping and duties
