

Avflex

GLOBAL TECHNOLOGY – LOCAL SERVICE

Professional Support for Creative People

For over 35 years, Avflex has supplied specialised products for Art Professionals, Craft Printers, Studios and Students. We offer Printing Plates, Consumables and Equipment, combined with professional support and technical guidance.

Kodak Miraclon & Rigilon Photopolymer Plates

Proven Kodak quality for Letterpress, Solar Etching and Flexo printing. Large range of thicknesses & reliefs. Hardnesses in film or steel backing. Whether you print, emboss, embellish or create, Kodak has a product to suit your needs.

Plate Mounting Tapes

Our Himark USA and Lohmann GmbH ranges are designed for firm hold of all photopolymer printing plates in multiple applications.

These innovative tapes allow firm bond with easy repositioning and simple and clean removal.

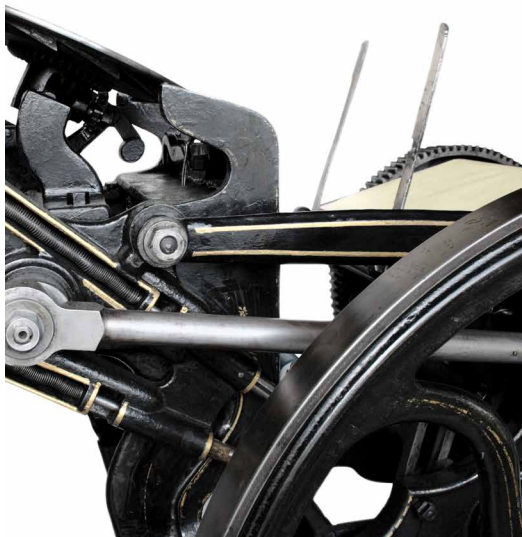

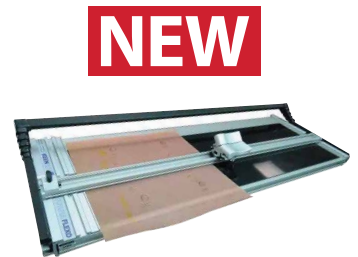

Unique air release liner allows for easy application. Available in multiple tack and thickness ranges to suit your application.

Flexo Futura Plate Cutter

State-of-the-art unit specifically designed for safe and accurate photopolymer plate cutting.

Constructed with fully self-aligning roller bearings, the Futura Plate Cutter eliminates manual errors. It can also bevel cut for gap-free plate application.

Pressroom Chemistry & Cleaning Products

CitraSolve: Unique citrus based cleaning chemical for fast and safe removal of all inks and grease.

CitraGel Hand Cleaner: Unique citrus based Gel hand cleaner.

White Spirits: Proven fast acting solvent for removal of all ink, grease or domestic contamination.

Isopropyl Alcohol: Premium and pure industrial degreaser and cleaner to remove any contaminate from plates, film, press parts or surfaces.

Pressroom Support Items

Avflex can supply virtually everything required to operate your pressroom including:

- Matrix Board
- Kreen Sheet
- Disposable Gloves
- Printers Aprons
- Printers Loupes (Eyeglass)
- Lint Free Cleaning Cloths

Mini UV Film & Photopolymer Exposure Unit

Ideal for making negatives, letterpress printing plates and hotfoiling plates.

Thick base glass that uses pressure instead of vacuum to make contact with the negatives and polymer plate.

Digital Timers and built in drawer for controlled post exposure & hardening plates.

Professional 3 in 1 Photopolymer Plate Maker

Expose, wash and dry plates in this fully automatic freestanding self-contained unit. It will produce perfect plates up to A1 in controlled conditions every time, with 6 fully optimised 40W exposure lamps.

Designed to help you take the next step-up in production. Easy to operate on 240V mains power.

Bunting Cerface™ Flat Magnetic Bases

Bases are for Platen and Flatbed Printing. Single or multiple bases can be easily locked into an existing letterpress chase where powerful surface-mounted Cerface™ permanent magnets hold your steel-backed photopolymer plates securely in register throughout the run.

Easily upgrade your equipment to make mounting and registration simple, fast and clean.

Plate Racking and Storage

Tailored to suit your studio's needs, this sleeve storage and rack system uses innovative file type folder system. Keep your valuable plates, film and artwork safe and free from damage in this modular storage unit.

Features an innovative tab system for easy identification and retrieval of plates, films or artwork.
