NEW

T60+ Color Viewer (Light Box)

T60+ Color Viewer (Light Box) is the latest version of the popular T60 range and can now accommodate up to six light sources. The consistency of the light sources in all TILO cabinets gives excellent viewing conditions for reliable colour critical decisions under consistent lighting. The T60+ is now the premiere equipment for colour matching in the Graphic Arts, Photographic, Packaging & Printing Industries.

- Available with six light sources (D65, TL84, CWF, TL83/U30, F, UV)
- Easy assembly and disassembly
- Meets or exceeds major international standards including: ASTM D1729, ISO3664, DIN, ANSI and BSI
- Easy to operate with individual switches for each light source
- Elapsed time meter for tracking lamp life and replacement
- Automatically alternating among light sources
- No warm-up time or flickering which insures quick and reliable colour judgment
- Economic power consumption and low heat generation for high efficiency
- The dimensions can be customised

Brand: TILO

Technical Information

Light Source Options	D50, D65, TL84, CWF, F, UV, TL83
Power	AC220V 50HZ
Size (cm)	71 x 40.5 x 57
