STOMA Plate Cutter

The STOMA Plate Cutter Type KPS T is equipped with two extra strong knives made out of special steel for maximum performance and accuracy.

Precision engineered, the machine consists of a table board with a lower knife, upper knife bar with flat guide and operating hand lever.

- Robust construction with high quality finish
- The Plate Cutter is equipped as standard with a side stop with millimetre scale, which ensures an exact adjustment of the desired cutting length
- The geometry and lever ratios of the hand lever enable easier and more effortless cutting
- The bottom knife is fixed, while the upper knife can be moved
- All bearings are lifetime lubricated and maintenance-free
