GLOBAL TECHNOLOGY – LOCAL SERVICE

CPL Metal Plate Cutter

The CPL Plate Cutter is a safe and accurate solution to metal plate cutting in letterpress and Pad Printing.

Professional plate cutting and trimming capacity of 18" as well as having imperial and metric edge scales.

On lowering the operating handle, a spring loaded clamp is activated which holds the material securely during cutting, thus enabling cuts to be made with a minimum of effort.

Constructed with an epoxy powder coated cast aluminium frame fitted with hardened and ground steel blades for extremely long service life. High Quality construction and made in Europe, CPL Plate cutters easily cut materials up to 2mm.

Suitable for:

- Metal Backed Flexo Photopolymer Plates
- Metal Backed Letterpress Photopolymer Plates
- Metal Backed Pad Printing Plates (Clichés)
- Film Backed Photopolymer Plates

Model CPL3

Pricing:

Model CPL3 (18"): \$3100.
