## MCL FlexoMac All in One Plate Maker

Developed exclusively by the McLantis Group UK in partnership with McLantis Group International. The FlexoMac plate maker is a truly unique “all in one” compact combination plate making unit to process water wash photopolymer plates quickly, easily and professionally. 4 sections for a totally self contained plate making solution. Constructed in Stainless Steel with quality electronics.

Fully compatible with all Toyobo Printight™ photopolymer plates from Avflex Australia.

### Section 1 EXPOSURE

Sliding roller bearing drawers

UV-A lamps with LED indicators and fully polished reflectors

Timer function with Vacuum with blanket and gauge

Exhaust extraction

### Section 2: WASH

Dual rotation brushes with adjustable wash time and brush pressure

*(Option: Type A model with chemical heating and circulation function)*

### Section 3: DRYING

Timer controlled hot air circulation and with automatic temp control

### Section 4 : DE-TACK

UV-C lamps with timer function and LED indicators.
