

# Scented PORON® Performance Cushioning

Now you don't have to stop to smell the roses

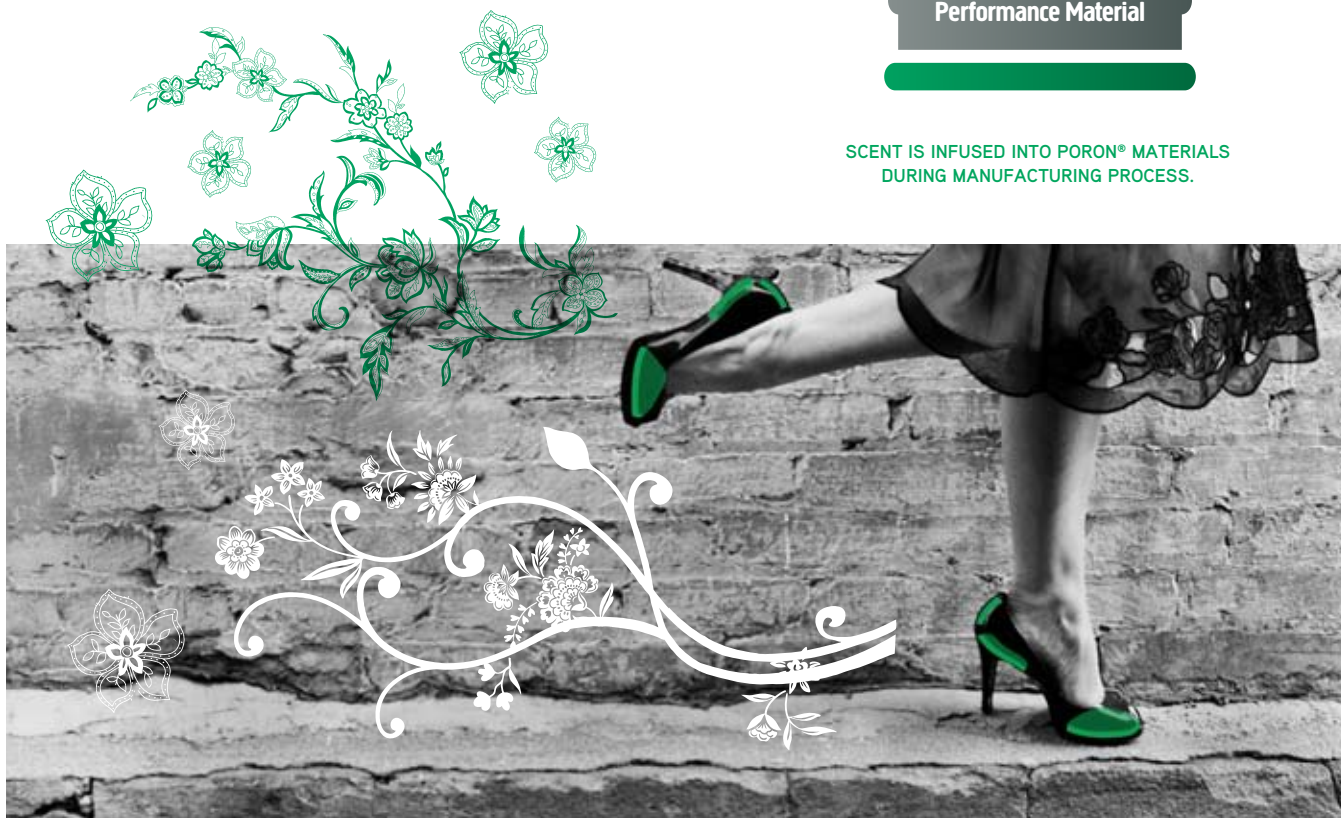

Your feet shouldn't have all the fun – introducing a unique new scented material offering for PORON® Performance Cushioning. Comfort for your feet and a fresh aroma for your senses make the perfect combination for a soothing experience. It's just one more way PORON Cushioning allows you to work and play in comfort.

Available in Lavender, Baby Powder and Rose fragrances, the new scented materials are specifically formulated and available in PORON Performance Materials. Infused into PORON Performance Cushioning, the scents are released while wearing and as the PORON Cushioning Materials are compressing and flexing in your shoe.

With scented PORON Cushioning Materials, ultimate comfort and aromatic enjoyment are only steps away.

SCENT IS INFUSED INTO PORON® MATERIALS  
DURING MANUFACTURING PROCESS.

*Additional scented PORON Material offerings may be available upon request. Please contact your Rogers Customer Service Representative for additional product capability information.*
